

ASAKUSA TOKYO SKYTREE MAP

The principle image of Sensoji Temple is the Mercy Goddess. There are festivals every month inside or near the temple. The Setsubun Festival in spring, Houzuki Festival in summer, and Toshi-no-ichi Festival, all make us feel excited.

We will go through this bridge if we come from Kaminarimon Gate to Tokyo Sky Tree. From the western edge of the bridge, the view from the Asahi Building side is superb for seeing Tokyo Sky Tree.

Visitors can enjoy sakura in spring and fireworks in summer while enjoying the flow of Sumida River.

It is able to see through the Kanto Plain from the second observatory of Tokyo SKYTREE, the highest transmission tower of freestanding broadcast structure in the world.
